EG&G, Inc is providing responses to comments to the IAG Responsiveness Summary as requested in your letter dated May 2, 1990

Since we received your letter, the EPA has produced a second draft of the responsiveness summary based on DOE, EG&G and CDH input. That draft is currently in review. As discussed with Margaret Wilson and other members of your staff, most of the responses that you wanted us to address are either deferred because they are prioritization issues or are DOE actions. Responses to the three EG&G action items are attached.

Please contact Tom Greengard at extension 7121 if you have any questions

RESPONSES TO PUBLIC COMMENTS ON IAG

- 1 **Comment/Response No 10**
EG&G is considering whether to become a signatory to the IAG
- 2 **Comment /Response No 109**
"5 44 231 (page 86) A copy of the Administrative Record should also be kept in the Front Range College Library along with the other documents concerning Rocky Flats that are kept there " Response - Correct as written

Proposed Revision to 5 44 231 (page 86) based on Comment 109 and Response

DOE agrees it shall establish and maintain an Administrative Record at or near the Site in accordance with Section 113 (k) of CERCLA. The Administrative Record shall be established in accordance with EPA policy and guidelines. Any future changes to these policies and guidelines affecting DOE's maintenance of the Administrative Record shall be discussed by the Parties and an agreement will be reached on how best to accommodate those changes. Once the Administrative Record is established, DOE shall maintain the master (paper) copy of the Administrative Record at the Rocky Flats Plant in the Environmental Restoration Department currently located in building T130B. The master copy is not required to be accessible to the public. This copy will be maintained specifically to ensure the integrity of the documents. There will be four (4) additional locations for the public to review the Administrative Record. These four repository locations will house at least one microfiche copy of the Administrative Record along with the microfiche reader/copier. These repositories are as follows:
